ABOUT ME

Coding has become my passion, I love to learn new skills and solve really hard challenges.
I have a wide experience in leadership and startup development. I'm easy going and have a strong commitment to boost up the projects I get involved in. You will find in me a great entrepreneurial spirit.
My main experiences are in software development, team leadership, project leadership, online sales and marketing and process automation.

TECHNICAL WORK EXPERIENCE

FULL STACK DEVELOPER - FREELANCE | AUGUST 2014 - NOW

I had created Single Page Aplications on Angular 1.6.x, VueJs and REST APIs on NodeJs. I had successfully lead projects from the ground up until commercialization and scalation stages.

SELF SERVICE MANAGER - AIVO | JUNE 2014 - JULY 2015

My main challenge was to lead the transformation of the main company service into a self service plattform. I had succesfully lead technical, marketing and sales teams towards the goal.
